Prayer to Realize My Dreams, Health, and Prosperity

I AM A CHILD OF GOD. I am heir to all the good, beautiful, bountiful, harmonious things that He possesses. Therefore, I am always manifesting God's highest attributes of health, prosperity, beauty, and harmony into this phenomenal world.

When I say that I am a child of God, it means that I am manifesting all of His attributes. Since God never becomes sick, as the inheritor of his divine attributes, I also do not become sick. Since God never becomes senile, I also do not become senile. Since God is infinitely prosperous and never becomes poor, as His heir I will never become poor. As a child of God, I am drawing all the essence of wealth towards me.

I am a child of God; therefore, I carry out His attribute of harmony. Wherever I go, harmony follows. The wealth that gathers around me is never obtained through exploitation of the wealth and labor of others. But rather, it gathers around me from God in a most harmonious and orderly form. Therefore, my wealth will never become the target of other people's envy or curse. Whatever I do, it is with God's wisdom foremost in my mind, for without His guidance, I will not be able to do anything. In whatever I do, I will never fail. Even if I may appear to fail, the experience will become a stepping-stone for me to develop and grow even more.

Therefore, no matter what happens, my mind will be at peace and will never be perturbed by fear. As a child of God, I have absolutely no relationship with fear.

God is everywhere. God's wealth is everywhere in infinite supply. Even if one outlet of wealth may close, I will not be agitated or become fearful since I know that wealth will begin flowing into me from yet another outlet that is even larger and in infinite supply.

God's infinite love and power lie in the depths of everything provided for us. When this infinite supply is being manifested, there is cooperation of love, wisdom, and life power of many people. When we look at all that is provided for us, before we see how good the form, the taste, and the beauty of everything is, we must first worship and offer our gratitude to God's love, wisdom, and life that lie behind all His blessings. Furthermore, we will also worship and offer our gratitude by seeing the True Image of humanity that has poured in its love, wisdom, and life.

I worship all things, and all things abundantly nurture me. Thank you very much!
