

Prayer to Receive Spiritual Healing in Everything

BY MASAHARU TANIGUCHI

I AM A CHILD OF GOD. This means I have God's life flowing into me and becoming one with me. Therefore, within me lies the infinitely great power of God that can cure any sickness. God's infinite life not only resides in me but also shines brightly within me. I am not a mere inactive volcano within which dwells God's life but an active volcano of God's life. I am like a volcanic vent whence God's life is expelled. How powerful is my life that flows out of God's life! The power that flows out from God's life helps me to do good deeds each day. I cannot help but perform some kindness every day. The motivation to do good deeds originally comes from God, so that all the good that I wish for is bound to materialize, and my good deeds will accumulate.

God is infinite, and as the outlet of God's life, I am also infinite. I have infinite life. I have infinite wisdom. I have infinite love. I have infinite abundance. Financially, I am provided with everything I need, hence I never lack anything. God's infinite wisdom flows into me constantly and inspires me with countless ideas. Since God's supply of ideas is inexhaustible, new ideas from Him flow constantly.

Wealth is not matter but ideas which contribute to the welfare of humankind. We are constantly receiving good ideas from God that will contribute to humanity's welfare, as well as being provided with fellow helpers and resources to realize them. I have now deepened my awareness and conviction that I am a child of God. Since I embody God's infinite wisdom, love, and power, I have no fear. Since I already have all the good that God embodies, I am capable of bringing the good of God's world into this world with my thoughts. God's infinite power flows forth through me, removing my fatigue, constantly supplying me with new energy, and enabling me to face my daily work with renewed vitality.

God's infinite love within me is a power that cures illness and all inharmonious conditions. As God heals me from within, I too can cure the sick by telling them of God's love. I bless everyone and offer my deep gratitude to God.
